Hi Angie,

Don't worry about tracking this down ... I was able to find someone here at CARB that had a copy.

Thanks,
Jeremy

Hi Angie,

I spoke with Gwen Yoshimura this morning, and she suggested I get in contact with you regarding the additional \$75K amendment to the 105 grant funding, which has been preliminarily approved internally at EPA Region 9, to conduct additional AMS measurements in the SJV. Gwen said that the easiest way to do this would be to tie the new work into the existing work plan. Do you happen to have a copy of the work plan that you could send me? Everyone here involved with the 105 grants seems to be out of the office today, and we'd like to get moving on this right away, given the need for a quick turnaround.

Thanks,
Jeremy

Hi Carol,

Stephanie suggests we try to just get the grants folks on the phone together. Could Jeremy let us know who at ARB our grants folks should coordinate with? Thanks!

-Gwen

Subject: SJV AMS Funding

Hi Carol,

Just a quick follow up on where things stand with the 105 grant funding for extending the AMS measurements in SJV?

From my discussion with Webster Tasat here last week, as long as we have an updated allocation info/table for 105 grant funding from EPA that shows this funding explicitly as a new line item, we should be good to move forward. I know there will be a delay in when we actually have the funds, but do you know if it's possible to get the new allocation info from EPA sooner (ideally this month)?

If any of this is confusing (and it may be, since I don't really know what I'm talking about regarding 105 grants), I'll be around next week if you'd like to have a quick phone call.

Thanks,
Jeremy
